Black Chambers  
of Commerce**

**Igniting Our Economy**

## ABOUT THE ASSOCIATION

The Florida Association of Black Chambers of Commerce was incorporated in 2020 to advocate for policies to strengthen small businesses across the state, ensure economic development resources are allocated equitable throughout the state, and to organize effective collaboration among the Chambers that provide vital technical assistance to businesses in critical communities in Florida.

# THE CHAMBERS

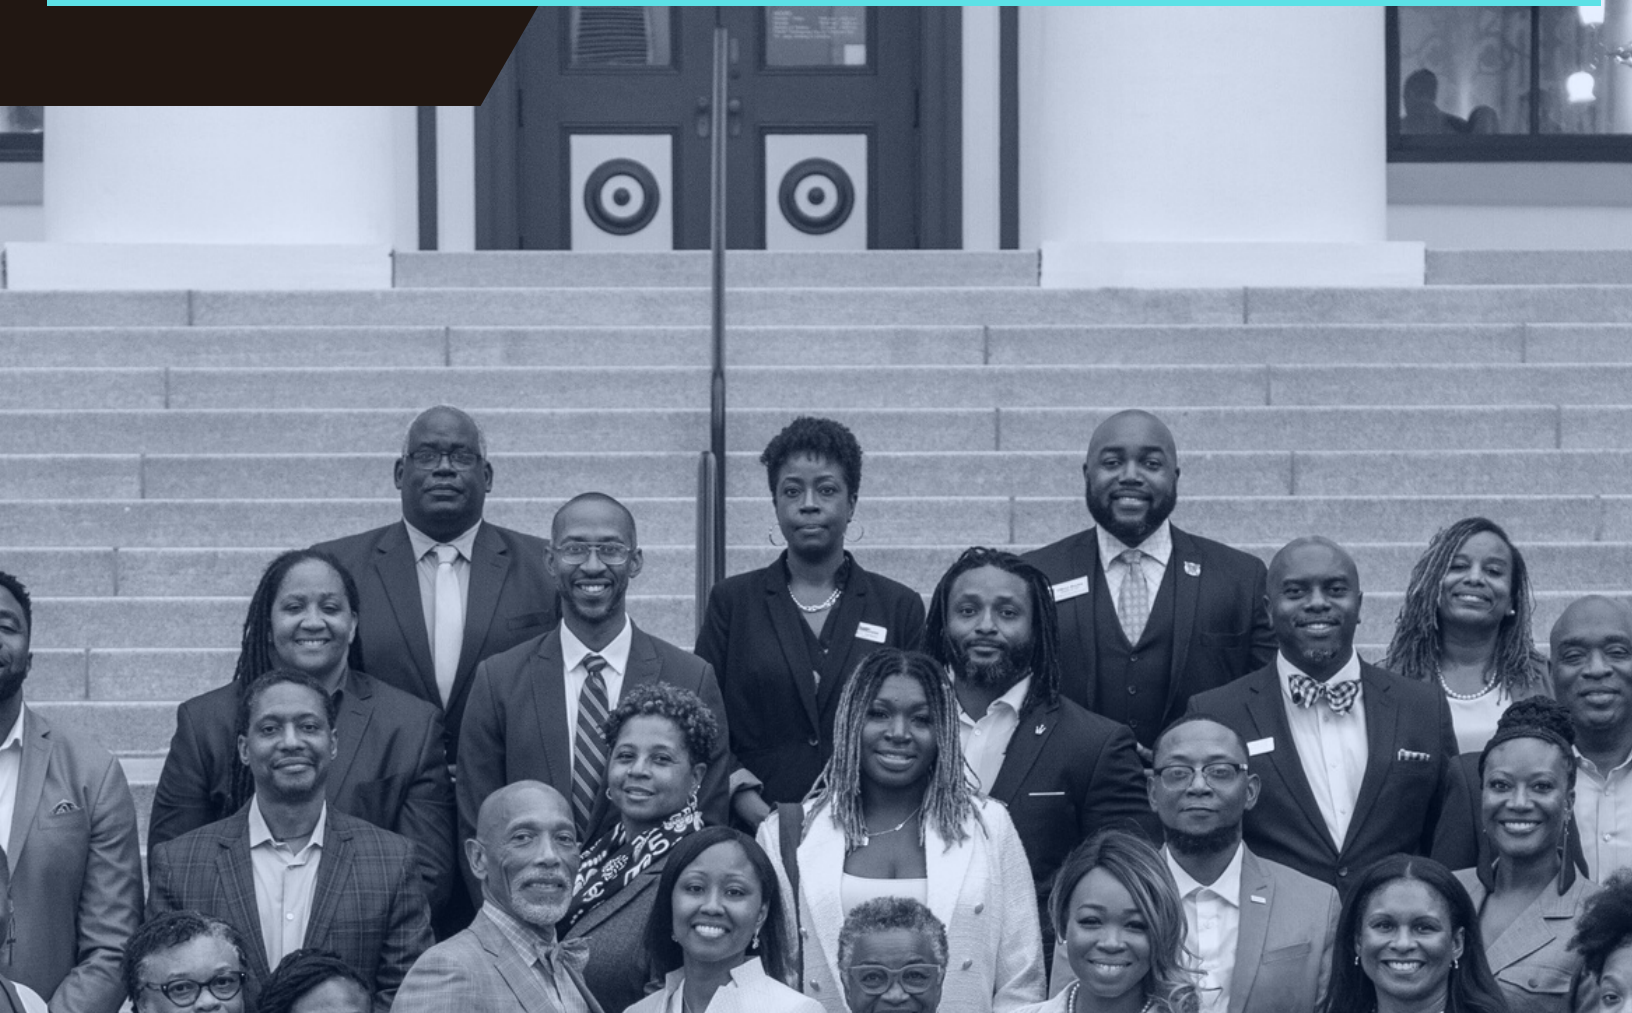

# **ABOUT BLACK CHAMBER DAY**

The Florida Association of Black Chambers of Commerce is hosting its annual Black Chamber Day at the Capitol on March 28, 2023. In its inaugural year, this exciting event brought together thirteen Chamber presidents and their members from across the state to connect with each other and to advocate for underserved communities.

It also provided an important opportunity to collectively advocate for the tools and resources our small businesses need to continue to propel our local economies forward.

The two day event features a welcome reception during the first evening of the event, a press conference on the Historic Front Steps of the Capitol, scheduled meetings with key legislators, and a luncheon on the second day.
